SKILLS

Frontend Development

- React.js
- TypeScript
- Redux
- Vue.js
- HTML
- CSS
- Less
- Storybook

Backend Development

- Node.js
- Nest.js
- API Design (REST, GraphQL)
- Microservices Architecture
- Swagger
- Postman for API documentation and testing

Databases

- MongoDB
- PostgreSQL

Version Control & Collaboration

- GitHub

Design & Prototyping

- Figma, Prototyping and Interactive Design

Soft Skills

- Leadership and Team Collaboration
- Planning & Organization
- Technical Problem Solving
- Agile Methodologies
- Mentorship & Coaching

PROFILE

With a background as an engineer in hydraulic engineering and urban planning, my successful transition to web development has led me to the role of Tech Lead Frontend at Erathis IT. My objective: to design exceptional user experiences by combining advanced technical expertise with thoughtful design. Driven by a passion for continuous learning, I am open to collaboration opportunities.

PROFESSIONAL EXPERIENCE

Freelance, Frontend Developer & Learner

01/2025 – present | Remote

- Built responsive and user-friendly web interfaces using React, TypeScript, and modern CSS.
- Worked with clients to understand needs and deliver tailored solutions.
- Created personal fullstack projects using Node.js, Express, and NestJS to strengthen backend skills.
- Improved coding practices, performance, and architecture through self-led projects and online courses.
- Committed to continuous learning to stay current with modern web development trends.

ERATHIS IT, Tech Lead

02/2023 – 12/2024 | Sousse, Tunisia

- Design and development of high-performance, user-centered web applications.
- Continuous optimization of performance and user experience.
- Regular code review to ensure quality and compliance with standards.
- Technical leadership and team support.
- Implementation of best development practices.
- Technology watch and integration of innovative solutions.

ERATHIS IT, Frontend Web Developer

05/2022 – 02/2023 | Sousse, Tunisia

- Creating innovative and responsive user interfaces.
- Constantly improving the user experience.
- Finding creative solutions to solve technical challenges.
- Maintained an organized file structure while working on projects, making it easier for team members to locate and edit code as needed.
- Contributed to a positive work environment by actively participating in team meetings and brainstorming sessions.

Gomycode, Fullstack Js Instructor

02/2022 – 05/2022 | Gabes, Tunisia

- Teaching Full-Stack JS skills (Node.js, React, Express, MongoDB).
- Guiding students in completing practical projects
- Providing assessments and constructive feedback on students' work.
